

What to bring to your session:

Clothes

For the second session in your baby series, we may still do some images of baby in just a diaper cover, however, at this session we begin using studio outfits as well as any outfits, hats, tutus or the like that you wish to bring. Mom & Dad please come with black dress shirt as well as coordinating outfit if you wish for family portrait at this session.

Props

We know you have received many special gifts, such as handmade hats and blankets. We ask that you bring those, along with special stuffed animals or other props you may wish to use. Remember, groomed nails on hands & feet.

The Session

At the 4 or 6 Month session we don't usually do sleepy images of baby so go ahead and let your baby rest before your session. If you want sleepy pictures bring baby tired & hungry. This session typically lasts for about 1-2 hours.

4 Month / 6 Month
