

## *What to bring to your session:*

### ***Clothes***

*For our newborn session we don't require any special outfits. If you have any hats, tutus or the like that you wish to try to use we welcome you to bring them. We typically photograph newborns either in birthday suit or in diaper. Mom & Dad please come with black dress shirt.*

### ***Props***

*We know you have received many special gifts, such as handmade hats and blankets. We ask that you bring those, along with special stuffed animals or other props you may wish to use. Don't forget your hospital hat. Parents will often be a prop, your nails will show so be sure they are well groomed.*

### ***The Session***

*Try to bring baby tired and hungry so we can get those sweet sleepy images. Once you arrive at the studio you will have time to feed your baby and rock him to sleep. We allow 4 hours for this session.*

*Newborn / 3 Month*
